PROFESSIONAL SUMMARY

B.Tech Information Technology student (CGPA 9.0) with a strong foundation in Data Structures & Algorithms, OOP, and DBMS, and hands-on experience in software testing, full stack web applications, AI/ML, and data science. Proficient in Python, Java, and C/C++. Seeking a Software Development Engineer role to design, build, and ship reliable software.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, SQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

Web & APIs: React.js, FastAPI, REST APIs, HTML, CSS

AI/ML & Data Science: Machine Learning, Predictive Modeling, Data Analysis, Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn, Folium

Databases: MySQL, PostgreSQL, MongoDB

Tools: Git, GitHub, VS Code, Jupyter Notebook, JDBC, MS Excel, Power BI

Practices: Debugging, Software Testing, Unit Testing, Modular Design, Version Control

EXPERIENCE

Work-Based Learning (WBL) Programme Trainee | STQC Bengaluru 09/2026 – 03/2027

IT Testing & Electronic Testing Domain | Bengaluru, Karnataka

- Participating in the Work-Based Learning programme at STQC Bengaluru, with exposure to IT testing and electronic testing practices.
- Building hands-on experience in software testing concepts, including test planning, test execution, and defect reporting.

Virtual Internship 7.0 – Full Stack Python | Infosys Springboard 07/2026 – 10/2026

- Completed a virtual internship in full stack development with Python, covering front-end and back-end application development.

Pragati: Path to Future, Cohort 9 – Cloud & AI | Infosys Springboard 06/2026 – 09/2026

- Completed an industry skilling programme covering cloud computing and artificial intelligence fundamentals.

Data Science Intern | Cognifyz IT Solutions 06/2026 – 07/2026

- Completed a data science internship involving data analysis and machine learning tasks using Python.
- Performed data cleaning, exploration, and model building using Python libraries such as Pandas and Scikit-learn.

PROJECTS

MarketMind – AI-Powered Investment Research Platform React.js, FastAPI, Python, REST APIs

- Built a full-stack web app for real-time stock analysis and portfolio tracking; designed FastAPI REST APIs serving a React.js frontend.
- Integrated AI-based recommendations, technical indicators, sentiment analysis, price prediction, AI-generated reports, and a stock-query chatbot, organized as modular services.

Subscription Management & Automated Billing Platform React.js, FastAPI, PostgreSQL, REST APIs

- Built backend logic and a normalized PostgreSQL schema for customers, plans, billing cycles, and invoicing with correct state transitions.
- Implemented authentication and automated billing workflows, handling edge cases in recurring payment logic.

Restaurant Analytics & Rating Prediction Python, Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn, Folium

- Cleaned and analyzed 9,551 restaurant records to find trends across cities, cuisines, and ratings; studied the effect of table booking, online delivery, and price range.
- Applied feature engineering and built and compared Linear Regression and Random Forest models, supported by interactive visualizations.

Early Warning System Python, Machine Learning

- Analyzed data to identify potential risks and critical events using predictive analytics, applying data processing and ML techniques to improve timely detection.

Alumni Database Management System Java, NetBeans, JDBC, MySQL

- Built a desktop application with full CRUD operations for alumni registration, profile management, and record search, applying OOP principles.
- Integrated MySQL via JDBC and designed the database schema and GUI for efficient storage and retrieval.

Sneakers Website HTML, CSS

- Built a responsive, mobile-friendly e-commerce sneaker website with product showcase pages and interactive UI features.

EDUCATION

B.Tech, Information Technology | Garden City University 2023 – 2027 | CGPA: 9.0

Pre-University (PUC) | New Baldwin PU College 75%

SSLC | Spoorti Sagarika Public School 70%

CERTIFICATIONS

Software Testing and Automation Specialization (Coursera); Agentic AI Engineering Specialization (Edureka); Full Stack Development Training (Infosys); AI & Machine Learning (Infosys); Full Stack Development: Web Communications Layer (Infosys Springboard); Progressive Web Application Development (Infosys Springboard); Data Mining with Python: Classification and Regression (Infosys Springboard); Deep Learning with Keras (Coursera); Fundamentals of Java Programming (Coursera); Data Science Essentials with Python (Cisco); Introduction to Modern AI (Cisco); Deloitte Data Analytics Job Simulation (Forage); Tata GenAI Powered Data Analytics Job Simulation (Forage)

SOFT SKILLS

Problem Solving, Communication, Teamwork, Adaptability, Time Management
